

**YOUR SAFETY...  
OUR MAIN CONCERN**

When hiring a bus company for group travel, or buying a ticket for a personal charter, safety should be your top priority, like it is here at **Silver Fox Bus Lines, Inc.**

When deciding which company you should hire to bring you and your guests to your destination, you should be educated and well informed on that company's safety performance history and their safety rating.

Here at Silver Fox, we recently received a comprehensive review at our facility by the **Transportation Safety Exchange (TSX)**. Results were based on applicable regulations and safety management controls, as well as on-road performance information received from the **U.S. Department of Transportation's Federal Motor Carrier Safety Administration (FMCSA)**.

We are proud to say that **we passed our safety tests with flying colors**, and received the highest rating possible, which lists our company as a **TSX APPROVED CARRIER**. This label indicates our dedication to quality and demonstrates our commitment to safety compliance.

When you book Silver Fox, you can rest assured that your safety is in great hands, so you don't have to be worried about your safety during the trip: we have that covered. We place each and every passenger's safety and livelihood as our top most priority, just as every company should.

**Book Silver Fox with confidence, because *your safety = our main concern.***
